REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach and/or suggest a battery pack having a pair of heat transfer plates arranged on the top and bottom surfaces of a plurality of batteries arranged in a flat configuration, which heat transfer plates are in surface contact with the housing which is also made of a material having excellent thermal conductivity to transfer heat.

The closest prior art to Kenji (JP 10154494 A) does not teach that the housing and heat transfer plates both have excellent thermal conductivity to transfer heat through the heat transfer plates to the housing and then through the housing where the heat is dissipated. Kenji in particular discloses that the housing structure 3 is made of a material that does not have good thermal conductivity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce F. Bell whose telephone number is 571-272-1296. The examiner can normally be reached on Monday-Friday 6:30 AM - 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571 272-1302. The fax phone
